EXPERIENCE

Matchbox Design Group, St. Louis, MO — *Software Developer - Apprentice*

July 2021 - PRESENT

Develop and maintain websites and web applications for a variety of customers. Primarily use WordPress, SCSS, Tailwind CSS, Vue, Jquery, and Laravel Blade templating to build custom user interfaces that are pixel perfect to the comp and are responsive. Work closely with clients to resolve bugs or add features in a timely manner.

Xcel Energy, Denver, CO — *Data Analyst*

December 2020 - July 2021

Utilized Python and VBA to automate repetitive tasks for multiple teams across the supply chain department. Queried data out of SAP Business Objects and into Power BI to create reports and dashboards for a wide audience (VP of Supply Chain, Directors, Managers and Individual Contributors).

Xcel Energy, Denver, CO — *Planner/Buyer*

September 2018 - December 2020

Managed material needs for all distribution projects in the Denver Metro East area, expediting when necessary and informing crews and BU's of delays. Sole Planner Buyer procuring and managing material for the 5G and outdoor lighting projects.

Fun Language, Bangkok, Thailand — *ESL Teacher*

November 2017 - May 2018

Planned, prepared, and delivered English lessons to 500+ students weekly. Adapted teaching styles to cater to age (4-60), class size, language ability, and student goals.
